

TITLE:

GRAPHIC & TECHNICAL DESIGNER

Date Posted: November, 2022

THE OPPORTUNITY

Immediate full-time employment for an enthusiastic and dedicated team player is available within our company. Working closely with management, client services and production, this person's diverse responsibilities will include:

- Graphic and Technical Design for a wide variety of printed, assembled, and fabricated signs
- Pre-press / Production Prep - efficiently and precisely prepare all types of files for printing and production
- Create graphic concepts for sales, proofs for clients, drawings & documents for production and permits
- Produce detailed technical manufacturing drawings for in-house production and sub-trade production
- Regularly maintain and update company website and social media platforms
- Conceptualize finished products using a variety of diverse mediums and materials
- Maintain efficient workflow in a fast-paced environment and prioritize projects to meet client deadlines

THE PERSON

- Has a passion for strong design, branding, and marketing, and will carry this through projects of all sizes
- Constantly draws on their creativity and attention to detail, but as required will be equally content to use this experience to work on the mechanics of other design files
- Is incredibly organized and service-oriented, adhering to company workflow and procedures
- Works efficiently in a fast-paced environment, meeting deadline challenges that can change quickly
- Is a dedicated team player, contributing their own unique qualities and energy to the organization to further strengthen our winning team

THE QUALIFICATIONS

- Post-Secondary education in Graphic Design, Industrial Design, or related field
- 3 to 5 years of experience designing graphics and creating technical drawings. Related industry experience an asset
- Strong familiarity with CAD software is required (Corel Draw, AutoCad, Rhino) as well as an understanding of a wide range of file formats and their properties (dwg, dxf, jpeg, eps, pdf, ai, etc.)
- Working knowledge of Wordpress, WPBakery, and SEO
- Experience with general office procedures, email and internet use
- Can demonstrate strong communication skills and customer service

Applicants selected for an interview are required to provide a portfolio of their work.
